*Rolls from 20 m<sup>2</sup> to 250 m<sup>2</sup>*

### ***A long-lasting insecticidal net with a wide range of uses inside buildings***

For professional use in homes, hotels, industrial buildings, hospitals, museums, restaurants and canteens (do not use in places where food is prepared), shops, storage areas, slaughterhouses, etc. Proven efficacy against moth nymphs, grain weevil, rice weevil, lesser grain borer, sawtooth beetle, tobacco beetle, midges and mosquitoes.

**Read the label and precautions carefully before using this product.**

#### **DIRECTIONS FOR USE**

Depending on the site of application and the desired insecticidal effect, the net can be placed as follows:

- For crawling insects, tie the net under the bed frame, behind cabinets, behind skirting boards, etc. After fixing the net, make sure that no one can come into direct contact with it;
- For flying insects, such as midges and mosquitoes, secure the netting in a window frame or hang it as a curtain in door openings or other room dividers or storage places.
- For applications against flying and crawling insects, the net can be placed around goods, as a sleeve on a pallet and/or as a curtain between storage areas. Make sure there is no direct contact between the net and any food. If the net is to be used to protect foodstuffs, make sure that they are packaged (preferably using plasticised packaging, plastic film, etc.) so that there is no contact with the food;
- For museum applications: under and behind cabinets, as a curtain between spaces and storage areas, and on museum items to be protected.

**IMPORTANT: The net can never be washed or used outdoors!**

**WARNING**

**HAZARD STATEMENTS:**

Very toxic to aquatic life with long-lasting harmful effects.

**PRECAUTIONARY STATEMENTS:**

Keep out of the reach of children. Avoid release to the environment. Collect spillage.

Dispose of contents/container in accordance with national regulations.

**IF ON SKIN:** Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention.

**IF SWALLOWED:** Call the POISON CENTRE (Tel. 070/245 245) or doctor if you feel unwell.

**IF INHALED:** Remove person to fresh air and keep comfortable for breathing.

**IF IN EYES:** rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Batch number: see information on the packaging

Expiry date: Refer to the information on the packaging (production date + 2 years)

Shelf life: 2 years
